If dance is an expression of the human spirit, then it is best expressed by people of all abilities. That is the fundamental belief behind the Dancing Wheels Company & School. Considered one of the premier arts and disabilities organizations in the U.S., Dancing Wheels is a professional, physically integrated dance company uniting the talents of dancers both with and without disabilities.

Mary Verdi-Fletcher, the first professional wheelchair dancer in the U.S., founded the Dancing Wheels Company in Cleveland in 1980. Born with spina bifida, Mary wanted to offer others with disabilities full and equal access into the world of dance. An almost unimaginable concept at the time, Mary’s vision and passion have since helped to revolutionize our very notion of dance – as well as what defines a dancer.

Furthering the mission of inclusive arts and recreating opportunities for all, the School of Dancing Wheels proudly opened its doors in 1990. Its state-of-the-art studios were soon regarded as a world-class training center for dancers, choreographers and educators. That same year, a partnership with the Cleveland Ballet created the ground-breaking Cleveland Ballet Dancing Wheels which went on to delight audiences for nearly a decade.

To date, the Dancing Wheels Company’s inspirational mission has touched over 5 million people through performances, school assemblies, residencies and workshops. Millions more have enjoyed their artistry via appearances on CNN, Good Morning America, 20/20 and the TV special “Christopher Reeve: A Celebration of Hope.”

Dancing Wheels travels the globe advocating disability awareness and entertaining 30,000-50,000 people each year. With a repertory of over 60 works from nationally-esteemed choreographers and a message of inclusion and accessibility, the Company continually expands the reach of artistic possibilities while celebrating the universal spirit of dance.

**Mission & Purpose:**

**The Dancing Wheels Company & School** is an organization of artists with and without disabilities that educates, entertains and advocates through inclusive dance worldwide. - **Provide** successful, independent and creative role models for those with disabilities.
- **Erase** negative stereotypes about people with disabilities in professional careers, primarily in the arts.

STANDARD ASSEMBLY-BASED PROGRAMS

Perfect for K-College, these 45-60 minute programs combine dance and dialogue to educate kids about disability-related issues in an entertaining and informative manner.

After a series of energetic dance excerpts, audience members hear the story of a dancer with a disability who has lived out their dreams despite societal obstacles, emphasizing the important aspects of accessibility. Dancers demonstrate the language of dance through adaptive translation using methods like sign language, shadowing, and audio-description. The final message relates to the founder’s dream to dance despite her disability, and to make the arts accessible and available to people of all abilities.

Components of an assembly-based program may include:

Assembly-Based with Story Ballet Theme: These are abbreviated versions of mainstage concerts for in-school performances with the full Company:

- **Alice in Wonderland, Like You've Never Seen Before.** A contemporary production that’s both edgy and family-friendly using imagery and characters to take a kaleidoscopic trip through Wonderland.
- **Daring to Be DUMBO!** A reimagined story set in a contemporary junior high school, where Dumbo is a bullied 13-year-old girl who exemplifies turning differences into strengths.
- **Helen Keller: A Tribute to My Teacher.** Honoring the 2006 Cleveland Sight Center centennial, this story ballet showcases Keller as a pioneering force for women, people with disabilities, and the civil rights movement.
